SentriScan LPR

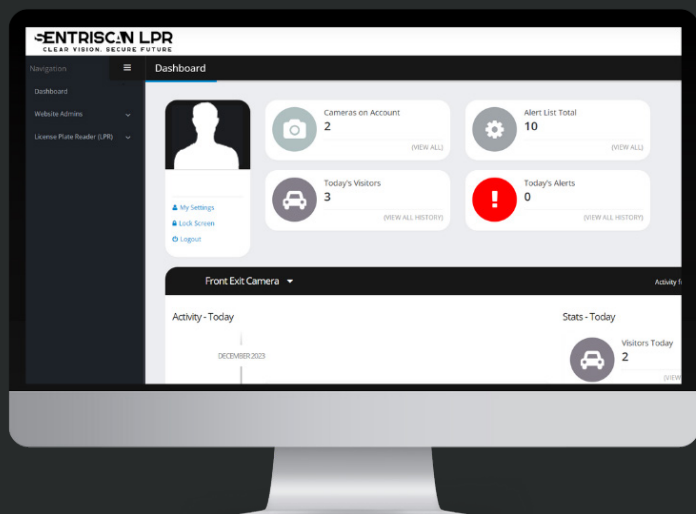

SENTRISCAN LPR
CLEAR VISION. SECURE FUTURE

Unlock the power of advanced surveillance with our state-of-the-art License Plate Reader (LPR) system, SentriScan LPR. Engineered to provide unparalleled security and efficiency, our solution brings a new level of intelligence to monitoring and access control. SentriScan LPR is the epitome of innovative technology seamlessly merged with user-centric design, creating a comprehensive solution for high-performance recognition needs on a global scale.

Features:

- Capture and decipher license plate data, ensuring reliable identification in any condition
- Instantly track and log vehicle movements with real-time monitoring capabilities
- Comprehensive surveillance features including direction detection, event management, and system notifications
- Equipped with weather-resistant junction box, optional high-speed WiFi package, and tripod arrangement

Benefits:

- Access SentriScan LPR information remotely to receive instant event notifications from any location
- Tailor alerts and notifications to suit your specific needs
- Scalable and adaptable to various environments, our LPR system caters to diverse industries
- Enjoy comprehensive assistance from installation to ongoing support
